Portfolio

The moment I produced "Hello World" in the console, I knew I was hooked into the world of software development. But software development has never been "just a job" for me, it has birthed a fresh creative outlet. Now if I'm not refining my Brazilian Jiu Jitsu skills, I'm obsessing over my React and JavaScript applications!

📁 PROJECTS

Liberty Mall Online Shop ⧉
An online shop that uses an API to gather product information to sell to the public. Frontend created on a React.js framework. Backend created on a Flask framework using Python and SQLAlchemy.

To Do List ⧉
To do list website made to help productivity in completing tasks. Able to create, mark complete and delete tasks. Created on React.js.

Miami Tech Works ⧉
MiamiTech.Works is a portal created by a coalition of Miami's business, education and government leaders combining resources to help local citizens. Volunteered to design Jobs Section for desktop and mobile view using Gatsby.js.

Movies API ⧉
A website for any film enthusiast. Search for any movie and learn about the director, cast, and more. Created using HTML, CSS and JavaScript. Data was pulled from an open source API.

Etch-A-Sketch ⧉
Etch-A-Sketch website resembling the children's toy. Website created to demonstrate DOM manipulation skills. Created using HTML, CSS, and JavaScript.

🧠 SKILLS

HTML5 | Cascading Style Sheets (CSS) | Bootstrap CSS | Javascript | React.js | React Hooks | Git/Github

Flask | Python | RESTful API | Fetch API | Flux | Webpack | SQLAlchemy | SQL | Data Modeling
